Name: _____

Advisor: _____

Graduation Year: _____

Sustainability

The number of courses required for the major is 13 (40-44 semester hours). This major recognizes the environment as a physical, social, cultural, and psychological that is threatened by many forms of human activity. It further recognizes that humanity can make a difference by developing multi-faceted solutions that will help us to exist as a species, create an equitable society, and maintain a healthy planet.
