Sustainable Food Systems Minor

This minor investigates the challenges of the current global food system. With a focus on the cultural meanings of food, and the social and physical conditions under which we grow and consume foods, the minor equips students with the understandings and tools needed to build a more sustainable world.

The total courses required for the Sustainable Food Systems minor is 6 (17-19 credits)

Requirements:

All of the following (17-19 sem. hrs.)

- SUS 101 Introduction to Sustainability (3 sem. hrs.)
- ANTH 270 The Social Science of Food (3 sem. hrs.)
- SOC 200 Human, Animals and Interaction (3 sem. hrs.)
- ENVR 340 Sustainable Agriculture (3 sem. hrs.)
- ANTH 230 Culture and Gardens (3 sem. hrs.)
- FOOD 290 Internship (2-4 sem. hrs.)
